AMENDMENT TO CONTRACT

RECITALS

- The parties hereto entered into Contract 03-184 on February 25, 2003, for the Abandonment of Existing Groundwater Monitoring Well ST-7 and installation of replacement well ST-7A.

2. Additional work is necessary due to the existence of an unstable clay layer that was encountered at a depth of approximately 320 feet while drilling the new well. This layer cannot be stabilized using the method of drilling as specified in the original contract.

IT IS THEREFORE MUTUALLY AGREED

1. Contractor shall be compensated for cost expended to date to stabilize the borehole for the new well:

Rig Cost to stabilize the borehole = 20 hrs @ 350.00 = \$7,000.00.

2. Contractor shall perform the following extra work as directed by the Engineer:

Utilize mud rotary drilling to stabilize the clay layer and complete the construction of the well.
Compensation for this work will be made on a time and materials basis (at the rates specified in the attached Exhibit "Amendment No. 1 A") including the mobilization/demobilization of the drilling rig, drilling of the well and geologist time.

The estimated cost of this work based on time and materials needed = \$17,000.00.

The estimated net increase in the contract for this amendment is **\$24,000.00**.

All other provisions of Contract No. 03-184 shall remain full effect.

IN WITNESS WHEREOF, the parties to these presents have hereunto set their hands.
